

SAN JOAQUIN
DELTA
COLLEGE

SJDC RTV
RADIO & TELEVISION

SJDC's Radio Television (RTV) department offers a hands-on, skills-based program preparing students for careers in television, radio and the internet. Our radio students gain valuable experience at KWDC-LPFM, a federally licensed radio station. Video production students create programming for Delta College Television (DCTV).

Our coursework is designed to help students build their portfolios and develop their professional network.

Students have access to industry standard equipment, gear and software to complete their assignments. Advanced RTV students connect with industry professionals to add to their portfolios.

Certificate and degree options

- Radio/Television, Associate in Arts
- Media Studies with Concentration in Radio, Certificate of Achievement
- Media Studies with Concentration in Television, Certificate of Achievement

What can I do with my degree/certificate?

RTV students can pursue work as broadcast news reporters, radio hosts, podcasters, writers, directors, producers, editors, social media content creators, audio engineers, audio board operators, photojournalists, and anyone else who works to inform and engage their audiences across multimedia storytelling platforms.
